

Forklift

Rick Hamminga

Duration: 6 hours **Cost:** \$129 **Course Minimum:** 4 **Course Maximum:** 12

The Forklift Training course provides workers with the knowledge, skills, and attitudes necessary to remain safe while operating a lift truck on construction sites, in warehouses, and in manufacturing plants. Training meets CSA Safety Standard B335-15.

Topics include:

- Regular Inspection
- Maintenance and repairs of lift truck
- Periodic provision of sufficient training of operators to ensure skill and expertise
- Loading and unloading procedures for safe operation
- Safekeeping of training records and evidence of certification
- Current laws and regulation impacting the operation of powered industrial trucks
- Forklift Fundamentals
- Principles of balance, stability & capacity
- Safety guidelines of operating forklifts
- Safe load handling techniques
