Working at Heights Refresher

We are pleased to offer Marcus Krueger Services's (WAH-34637) CPO approved Working at Heights Refresher Training program.

Working at heights refresher training is the practical module of the working at heights training program (section 9.2 of the Working at Heights Training Program Standard). The minimum duration of the refresher training is three-and-a-half (3.5) hours of training delivery.

The practical module covers the following topics:

- barriers and safety nets;
- personal fall protection equipment;
- anchor points;
- work positioning systems, work access and platforms; and
- rescue planning.

In addition, it includes a hands-on demonstration of equipment and procedures, and a written test.
